ADDITIONAL FREIGHT PROTECTION PRODUCTS

Sunrise MFG understands your need for a sole supplier focused on freight protection. We provide a complementary line of products to work hand in hand with our manufactured dunnage and air bags. Our wide array of products can be shipped in mixed loads for one-stop shopping and freight savings.

AAR WOVEN STRAPPING

Maintains a controlled tension in the most demanding applications.

CHIPBOARD

Economical support and protection. Wide range of thickness and sizes.

CORNER AND EDGE PROTECTION

Provides column strength and protects product integrity. Available in a wide range of sizes.

CORRUGATED SHEETS

Versatile protection from buffering air bags to providing additional product layer protection.

DESICCANTS

Eliminates airborne humidity before it can damage your product.

FOAM

Safeguards delicate items and odd-shaped products, fills head space in drums, and more.

SEALS

High-strength seals defend against cargo loss and product tampering.

STRETCH FILM

Ability to down-gauge with high performance film to provide greater cost efficiency.

TY-GARD® & TY-PATCH®

AAR tested and approved to secure dangerous goods.

ZRO-SHIFT®

Simple-to-use rubber friction matting replaces wood blocking and bracing.
